

INTRODUCTION  
TO  
PARTS CATALOG

Because of the variations in costs, we must advise that there may be differences between the published retail price and the actual selling price.

Your dealer carries many of the items listed in this catalog and is prepared to expedite the ordering of any parts which he has not inventoried.

Important: If you wish to prepay, please contact us for a firm price quote before sending your remittance; otherwise, orders from the company are shipped C.O.D.

IMPORTANT - READ BEFORE ORDERING

This catalog has been sectionalized to facilitate your locating desired parts. Your local Pearson Dealer may stock many of these parts. If they do not, they will be happy to accept your order. If it is inconvenient for you to contact your nearest Pearson Dealer, you may order directly from Pearson Yachts.

When ordering, please provide us with the following information:

1. Boat Model and Hull Number (e.g. P-30 #100)
2. Quantity. Specify for each item ordered.
3. Part Number.
4. Description, as shown in this catalog.
5. Shipping Instructions. In the absence of your specific shipping instructions, we will use our best judgment. However, we cannot be responsible for delays or expense.

CREDIT: Credit is gladly extended to rated dealers. All other orders will be sent prepaid or COD.

PRICES: The prices in this catalog are suggested retail prices only, listed for the guidance of our dealers. The actual resale price in different areas may vary due to transportation costs and other conditions beyond the control of the seller. All monies being sent from a foreign country (e.g. Canada) must be in American currency or equivalent. All prices in this catalog are subject to change without notice and are F.O.B. Portsmouth, Rhode Island.

PACKING: We use every reasonable precaution in packing our parts to reach you in perfect condition, with due consideration to type of article and means of transportation. All shipments are made at the risk of the purchaser and we cannot be responsible for shortage, loss, or damage occurring in transit. In the event of such loss or damage, you must advise the carrier within 15 days of receipt of goods, and secure the carrier's notation of damage on the freight bill. Promptly thereafter, you must file your claim with the carrier. If any further assistance is needed, please contact us. We will give all reasonable assistance in tracing shipments.

WARRANTY: Every item we manufacture is warranted to be free from defects in material and workmanship. Any item found to be defective will be replaced or adjustment made provided we are notified promptly upon receipt and, if we request, the item is to be returned to us for examination. Repair and replacement of purchased accessories and components will be handled by us in accordance with the policies and apply to any part which shall have been repaired, altered, or otherwise serviced at other than duly authorized service facilities. In no event shall our liability for defects of any item exceed its replacement cost to us. Exterior finishes, applied during manufacture of the part, cannot be warranted because of the widely varying effect experienced in various climates.

RETURNED GOODS: All items being returned must have proper authorization. You must contact us for our written permission and Return Authorization Card. On the back side of the card is a printed form. This form should be filled out completely and used as a shipping label. If the label is not exposed, all incoming packages will be refused and returned to sender.

No credit for merchandise returned will be granted without the proper authorization from Pearson Yachts.

MINIMUM PARTS ORDERS: There is a minimum charge of five dollars (\$5.00) on all parts orders. This policy has been innovated for reasons of economy.

RESTOCKING CHARGE: Any items being returned for reasons other than exchange will be charged a fee of \$5.00 for restocking.

SPECIFICATIONS AND DESIGNS: The company reserves the right to make changes in design, materials, and prices without notice.
